HOVERAir

HOVERAir Powercase

255673

The PowerCase was designed with the ski slopes in mind. Slip your device in at the bottom of a run and it'll charge up while you're in line and on the lift. Your X1 PRO or PROMAX will automatically go into sleep mode so you can get flying again immediately.

PRODUCT DETAILS

PowerCase, designed for ski slopes
Designed with ski slopes in mind, the PowerCase ensures your device stays charged while you wait in line or ride the lift, providing convenience on the go.

Extended battery life
With a capacity equivalent to 12,000 mAh, the PowerCase offers over two and a half additional charges, keeping you powered throughout your outdoor adventures.

Optimal performance in cold weather
Optimal performance in cold conditions, the PowerCase operates effectively at temperatures as low as -20°C and is not recommended for use above 30°C.

Easy slip-in design
The easy slip-in design allows for both protection and charging, ensuring your X1 PRO or PROMAX is ready for action when you are.

Convenient on-the-go charging
Features a detachable strap for convenient charging on the go, and supports instantaneous wake-up from sleep mode, allowing for quick flight readiness.
