PRODUCT DETAILS

**Medium rooms**
Filters room air at the industry-recommended rate of 5x an hour (or about every 12 minutes) in a 40 m² room to effectively lower particle levels and maintain a comfortable environment in master bedrooms, living rooms, and playrooms.

**Wi-Fi-enabled**
The Classic 405 air purifier allows you to take full control of your indoor air quality with intelligent smartphone control and Alexa compatibility.

**Powerful filtration**
Blueair's unique combination of electrostatic and mechanical filtration that they call HEPASilent™ filtration technology sets us apart. The combination allows us to use filters that are less dense and require less air pressure than traditional HEPA filters without a loss in performance— resulting in quieter and more energy efficient air purifiers.

**Built to last**
Housing made from durable, galvanized steel stands the test of time.

**Customize settings**
Adjust air purifier settings like child lock, night mode schedule, LED brightness, and more to fit your lifestyle.

**Noiseless**
Whisper quiet on the lowest speed (32 dB) and equivalent to the noise level of rainfall on the highest setting (52 dB).

**Low energy consumption**
Energy efficient (15-90 W) - so you can run this air purifier 24/7, knowing it uses less energy than a traditional lightbulb.
