The SmartWatch that adapts to you in the best way

Farve

PRODUCT DETAILS

Vieta #MOVE Smartwatch

The key to improve our health and well-being starts with learning about ourselves. That's why we designed the new Vieta #MOVE Smartwatch; so that you can finally have your gym buddy, nurse, and assistant all at your fingertips.

Fitness Companion

Monitor your fitness progress with Vieta's smartwatch. It measures physical activity, focusing on individual sports; Walking, Running, Cycling, Swimming, Jumping Rope, and team sports; Badminton, Basketball, and Football. It can also track your routes as it syncs with your Smartphone's location to keep a more advanced control.

Health Companion

Reduce your worries with continuous and constant monitoring of heart rate, blood oxygen, and blood pressure. With the Vieta #MOVE Smartwatch, you can precisely control your sleeping hours, the female physiological cycle, and program alerts that get you up from the seat when you have not been moving for a long time. In addition, it helps you relax with a guide of breathing meditation that supports you when you need to slow down in times of stress.

Keeping you up-to-date and on-time

Thanks to its effective vibration system and wake-up alarm, you'll never be late again. And with an excellent user interface and easy-to-read display, the Vieta #MOVE Smartwatch will keep you up to date on all your WhatsApp messages and general notifications.

Extra long-lasting Battery

Take a break from chargers! Thanks to its incredible autonomy of 5 to 7 days, you can keep track of all your apps while analyzing your sleep without any troubles or interruptions.

Timeless Design

The design of the Vieta #MOVE Smartwatch is timeless and adaptative. It starts with a circular dial with a significantly reduced thickness for comfortable daily use. This interactive dial allows you to change the background design and customize it to your liking. Discover the many designs available for you: from needle watches to digital and sensor information, you can combine them and create your own personal style. Check out all of our designs in the DaFit app.

Our best Smartphone app

DaFit is the app that connects Vieta #MOVE Smartwatch with your Smartphone and analyzes the data obtained. Thanks to its excellent, user-friendly interface, DaFit portrays your data in a quick and clear way. From here, you can set and schedule alarms, start navigation, and add unique dial background

designs.
