

HOVERAir

HOVERAir AQUA Standard

256611

AQUA is the world’s first fully waterproof self-flying camera drone built to capture adventures, sports, and all your unforgettable moments on the water.

- AQUA Flies Itself: Featuring 10+ fully automatic flight modes, including Follow, Orbit, and Bird’s Eye. Switch to dedicated modes for kayaking, paddleboarding, and surfing, each tuned for smooth, cinematic tracking on the water.
- AI-Powered Subject Tracking: Powered by advanced sensors, AQUA automatically locks onto the subject and keeps you perfectly framed, with no controller or input required.
- Fully Waterproof Floating Design: IP67 rated and engineered for total waterproofing and corrosion resistance. AQUA handles waves, saltwater, and rain, then launches from and lands directly on the water’s surface, so you never worry about losing your drone at sea.
- 55 km/h Top Speed: Keep pace with any water-based activity and stay stable in strong winds with impressive Level 7 wind resistance.
- 4K Resolution at 100fps and HDR: Capture crisp 4K footage at 100fps and replay every moment in smooth slow motion. HDR up to 4K at 60fps balances bright highlights and deep shadows on reflective water surfaces.
- 128GB Integrated Flash Storage: No need for SD cards. AQUA features 128GB of built-in storage, giving you plenty of space for all your footage.

PRODUCT DETAILS

HOVERAir builds on its award-winning flying camera lineup, introducing AQUA, the world’s first fully waterproof self flying camera that takes off and lands directly on water. Designed for water sports, coastal adventures, and long lake days, AQUA captures action across oceans, rivers, and shorelines with complete freedom.

Advanced AI subject tracking powers 10+ automated flight modes delivering dynamic, cinematic footage completely hands free. 4K at 100fps slow motion and HDR up to 4K at 60fps preserve rich detail in fast action, while built-in stabilization keeps footage smooth in choppy, unpredictable conditions. Pair it with the Beacon and Joysticks for precise manual control and creative freedom on the open water.

The Lighthouse is a wearable tracking and controlling device that keeps you connected to AQUA at all times. Equipped with RTK (Real-time kinematics), the Lighthouse and AQUA maintain centimeter-level positional data of each other at all times, greatly enhancing AQUA's tracking ability. The Lighthouse also makes it easy to start or stop recording and return to home with a single button press.

With a 55 km/h top speed and Level 7 wind resistance, AQUA shifts effortlessly from high-speed surfing and sailing to relaxed kayaking and paddleboarding sessions. TurtleFlip lets AQUA right itself if it lands upside down on the water's surface, and its sub 250 g design means no registration is required. More than a drone, AQUA redefines how you capture life on the water, hassle free, hands free, and cinematic.

Waterproof Design

- IP67 rated waterproof and corrosion resistant construction
- Floating design
- Take off and land directly on water

Flight Performance

- 34mph (55 km/h) top speed
- Level 7 wind resistance for stable flight in strong winds and choppy conditions
- Optimized for high-speed water sports including jet skiing and kite surfing

Precision Tracking and Intelligent Flight

- Hands free AI tracking with return to home precision via Lighthouse wearable
- Positioning accuracy to the centimetre, even without direct line of sight
- Automatic distance monitoring and smart return within preset range
- 10+ automated flight modes including Follow, Dolly Track, Angle Track, Zoom Out, Hover, and Bird's Eye
- Dedicated water sport modes: Kayak, Paddleboard, and Surf

Imaging and Video Performance

- Large 1/1.28 inch CMOS sensor
- 1-axis gimbal keep footage steady
- Hydrophobic, anti-fog lens optimized for marine environments
- 4K video at 100fps for smooth slow motion
- HDR video up to 4K at 60fps
- Built-in stabilization for steady footage on moving water
- 128GB integrated flash storage

What's In The Box

- AQUA (with 1 battery) ×1
- USB C-C cable ×1
- Battery Waterproof Bags ×1
- Lighthouse (with 1 armband) ×1
- Repair Kit ×1
