PRODUCT DETAILS

For the really big show: our lightweight largest
The GOVIEW® ZOOMR™ 10x42 is designed for the discerning nature lover who wants to see their world in sharp focus in difficult lighting conditions. The robust glassfiber-reinforced plastic housing has a 10x magnification which, in combination with the large lens diameter, allows you to see even the smallest details in brilliant colors at the greatest distance. Speaking of colors: our GOVIEW® ZOOMR™ 10x42 is available in the cool colors Oak Green and Phantom Black.

Discover the unique details of your world with style and innovation
Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with an elegant design and many technical refinements for your use in nature, travel, sports or daily life.

To provide you with a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many highquality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing - without weighing much.

The complete optics are optimized for a maximum field of view and all lenses are multi-coated. In addition, the innovative design guarantees maximum ergonomics, so that you have a firm grip on your binoculars on all adventures - and if you don't have a hand free, the high-quality carrying strap ensures that you always have them at hand.

If you wear glasses, you can easily adjust the binoculars and monoculars of the GOVIEW® ZOOMR™ series to your needs with the extendable eyecups - alternatively, you can of course adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a wide range of accessories: a high-quality carrying case, protective caps, a cleaning cloth, our PORTR™ carrying strap and the universal CLOSR™ smartphone adapter, to share your impressions online.
