

Pioneer DJ

Pioneer DJ HDJ-X7 Pro DJ Over-Ear Headphones, Silver

152807

We've listened to feedback from DJs and improved on our previous professional DJ headphones. With newly developed drivers, the HDJ-X7 model gives you clean monitoring even at high volumes.

PRODUCT DETAILS

Outstanding sound

Thanks to the newly developed 50-mm driver, sound is always crystal clear. Add to that the tight bass notes from the optimised diaphragm, a cable with superior left and right channel separation and the bass reflex chamber, all enabling professional monitoring.

Rigorously tested

Even on the road, your headphones will handle severe conditions and heavy use. Durable metal is used in the moving parts, enabling a strong construction that cleared even the US Military Standard Shock test.

Comfortable fit

These headphones are comfortable to use no matter how you wear them. The housing design reduces pressure on your head, while its outside texture enhances grip. To help you find the perfect fit, they also feature a flexible, durable headband and a flexible swivel.

Solid, refined design

All the HDJ-X headphones feature a refined look and durable construction. Choose from black or silver versions to complete your desired look.

Various accessories included

The HDJ-X7 comes with a detachable 1.2 m coiled cable and a 1.6 m straight cable, plus an L-type mini-jack to prevent accidental disconnection.

Replacement parts available

Easily renew the detachable cables and ear pads with replacement parts (sold separately).
