PRODUCT DETAILS

Flexible Connections
The Epic Mini Keyboard is compatible with three—count ‘em, three!—device connection options. You can pair with nearly any type of device using Bluetooth 5.2, or USB. We hate pairing confusion too, so we made it super easy for you to switch between three saved devices.

Portable, Compact
Its small size doesn't compromise functionality, offering a full range of keys in a sleek, travel-friendly design. Whether you're working from a café or on a plane, this keyboard fits effortlessly into your bag.

Illuminated Keys
Designed for portability, the Epic Mini Keyboard features a compact 80-key layout, making it perfect for those on the go. Subtle backlighting ensures you can see every key clearly, whether you're working late at night or in a dimly lit room, improving visibility and style for any environment.

Smart Media Knob
The Epic Mini Keyboard utilizes a premium metal knob for heavy-duty durability. Whether you’re answering an important phone call or finding the perfect song to get in the zone, it’s only a click away—no mouse necessary.

Rechargeable Battery
Enjoy the convenience of a rechargeable battery that lasts over a year* with the Epic Mini Keyboard. Forget about constantly changing batteries; simply recharge and continue working without interruptions. This long-lasting battery life is perfect for professionals who need a reliable keyboard for extended use.

Custom User Profiles
Through our JLab Work App, you can program hotkeys for shortcuts to your favorite functions within your application. We know your Excel top five are probably pretty different from your Minecraft top five, so you can save up to three unique profiles and easily switch between them depending on what you’re doing. Check out some example set-ups.
