252078

The JLab GO Charge wireless Bluetooth mouse is a small, portable, and versatile device with up to three saved device connections, Bluetooth or dongle connection options, and adjustable DPI.

Style **BUILT-IN BATTERY**

PRODUCT DETAILS

Overview
The GO Charge wireless Bluetooth mouse is small, fits comfortably in your hand and - dare we say it - kind of cute? You have it all with you, it accompanies you from your desk to the café to the coworking space and beyond. We see you digital nomads. Three saved device connections mean you can change connections as easily as you would change filters.

Features

- Various connection options: Choose between 2.4 GHz (USB dongle) or Bluetooth to connect to virtually any device.
- Switch between 3 paired devices with just one tap.
- Compact, ambidextrous design
- Adjustable DPI button (800-1600)
- 6 buttons
- 500 mAh battery
