

Wilfa Performance Thermo Coffee Maker Black

253744

The Wilfa Performance Thermo Coffee Maker Black incorporates advanced technology to ensure a perfect brewing temperature from the first to the last drop. Its unique pump system empties the funnel of water after each use, maintaining optimal freshness. Additionally, the removable water tank guarantees that you always have access to clean and fresh water for brewing.

PRODUCT DETAILS

Performance Coffee Maker

The Wilfa Svart Performance coffee maker has been developed in Norway, in collaboration with World leaders in barista.

Perfect temperature

Unlike most other coffee makers, Wilfa Svart Performance Coffee Maker keeps between 92 and 96 degrees from the first to the last drop.

Unique technology

The pump completely empties the hopper of water at each brewing, therefore there will always be fresh clean water when brewing.

Detachable water tank - always clean water

With a removable water tank that you can fill directly into, you'll always have fresh, clean water for great tasting coffee.

Drip - stop (flow control)

An adjustable drip stop to set how much coffee you brew, and give you perfect coffee no matter the amount.

Approved by ECBC

Performance is approved by ECBC (Norsk Kaffeinformasjon), which sets requirements for, among other things, water temperature and contact time with the water. In order to get maximum flavors and aromas from the coffee, it is absolutely necessary that the coffee maker works with the right water temperature from the very beginning and throughout the brewing time. At the same time, it is important that the water does not take too short or too long to flow through the coffee powder. Small deviations mean that you can end up with either sour or bitter coffee.

Features

- Capacity 1.25 litres
- Brewing time 4-6 minutes
- Adjustable flow control
- Removable filter basket

Specs

Product Attributes

EAN:	7044876022783
Manufacturer number:	602278
Product weight:	3.6 kilograms
Pieces per master carton:	1 Piece

Technical specifications

Type:	Drip
Coffee type:	Ground beans
