

Pour Kettle Black

252957

The Wilfa "Black Pour" kettle with long pouring spout gives you full control of the water flow and is ideal for those who prepare coffee using the "pour over" technique.

PRODUCT DETAILS

The Pour kettle boasts a timeless design and is perfect for the pour-over technique. The long and narrow pouring spout provides complete control, ensuring a smooth and precise flow of water when pouring over your coffee. This excellent kettle is not only easy to use but also perfectly suitable for heating water for tea.
