PRODUCT DETAILS

Instant memories

myFirst Camera Insta 2 is designed to add joy and fun to your child's learning process. Unlike a conventional instant printing camera, this instant camera for kids uses thermal printing to create vivid and clear photos without needing to wait for the pic to dry. No shaking needed! Your child will be printing memories immediately with our 10-second printing capabilities!

Unlimited printing

You only need to use thermal paper and get snapping! Using thermal printing technology, you won't ever have to worry about refilling ink, ever! Each roll is capable of printing up to 60 sheets. We're also giving 2 rolls of thermal paper & 1 sticker thermal roll (36 shots) to go with your camera insta 2.

Sharp images with pre-loaded frames

The quality of our camera is reflected in our photos, printing from 3M all the way up to 12M. The camera is capable of taking 1920x1080 videos as well, to be saved to a microSD card (not provided). The camera insta can support up to 32GB microSD. Here at myFirst we want to give your child quality. Also, why take plain pictures when you can fit our custom frames to create stunning pics? Choose from a wide variety of pre-loaded picture frames. Your kid will be excited to no end!

12MP kid's instant print camera

Enjoy instant print out within 10 seconds with our 12 Megapixel myFirst Camera Insta 2. One of the best instant print camera that prints photos with the use of quality thermal printing paper and supports microSD cards up to 32GB.

Lightweight and long-lasting

Weighing a tiny 232g, your child will never get tired of using our instant print camera for kids. We've also provided a lanyard too with a battery capacity of 1500mAh and only 2 hours charging from flat, your child will be taking photos from sun-up till sun-down. Perfect for a day out at the zoo or a holiday trip.

Sticker fun!

Double the fun with our sticker thermal paper! With a sticky back, you can now paste your pictures anywhere. You could make things memorable with these sticker thermal papers. Plus the little ones can colour the pictures, making it a fun family activity!
