## PRODUCT DETAILS

For the really big show: our lightweight largest

The GOVIEW® ZOOMR™ 10x42 is designed for the discerning nature lover who wants to see their world in sharp focus in difficult lighting conditions. The robust glassfiber-reinforced plastic housing has a 10x magnification which, in combination with the large lens diameter, allows you to see even the smallest details in brilliant colors at the greatest distance. Speaking of colors: our GOVIEW® ZOOMR™ 10x42 is available in the cool colors Oak Green and Phantom Black.

Discover the unique details of your world with style and innovation Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with an elegant design and many technical refinements for your use in nature, travel, sports or daily life.

To provide you with a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many highquality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing - without weighing much.

The complete optics are optimized for a maximum field of view and all lenses are multi-coated. In addition, the innovative design guarantees maximum ergonomics, so that you have a firm grip on your binoculars on all adventures - and if you don't have a hand free, the high-quality carrying strap ensures that you always have them at hand.

If you wear glasses, you can easily adjust the binoculars and monoculars of the GOVIEW® ZOOMR™ series to your needs with the extendable eyecups - alternatively, you can of course adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a wide range of accessories: a high-quality carrying case, protective caps, a cleaning cloth, our PORTR™ carrying strap and the universal CLOSR™ smartphone adapter, to share your impressions online.

## **Specs**

## **Product Attributes**

EAN: 4260527416012

Manufacturer number: GB1301

Product weight: 0.0 kilograms

**Optical Parameters** 

Magnification: 10x

Objective lens diameter: 42

Eyepiece and objective coating: Fully Multi Coated

Prism: BAK4

Pupil distance: 56-76

Field of view (degree): 6.1

Field of view (meter): 106

Exit pupil: 4.2

Eye relief: 16.1

Close focus: 3-

**Features** 

Rotating eyecups: true

Filling: Nitrogen

Material: Glass-fiber reinforced plastic

**GFRP** 

Durability

IP classification: IPX5

Operation temperature: -10°C to +65° C

**Dimensions and Weight** 

Product height: 5.2

Product width: 13.2

Product length: 14.25

Product weight: 0.568
