PRODUCT DETAILS

PURE SOUND IN MOTION.

Transcend the limits of your space. With Devialet Mania, Devialet's iconic aesthetic has morphed into portable speaker form. A handle for ease of movement. An IPX4 splash-resistant rating for resilience. And Devialet's first built-in battery for up to 10 hours of wireless streaming. Experience pure infatuation with augmented listening that leaves a lasting impression.

QUALITY OBSESSED.

It's not just the adaptability of Devialet Mania's sound that's impressive; it's also the quality. It took us four years to translate our signature sound purity into portable form, and Devialet Mania is the culmination: a 30-20,000 hertz range, bass that you can feel in your bones, and sound that is nothing short of obsession-inducing. Succumb to its sound quality once and you'll never kick the habit.

REAL-TIME ADAPTATION.

Experience directional fluidity. Devialet Mania was engineered to homogeneously diffuse emotion-stirring, cross-stereo sound. Thanks to its real-time acoustic mapping technology, ASC - Active Stereo Calibration, an intelligent four-microphone array detects Devialet Mania's position and activates the most adapted rendering mode for immersive listening.

NO CABLES ATTACHED.

Seamless streaming. Thanks to Devialet Mania's dual streaming capabilities, you have the choice between Wi-Fi or Bluetooth®. When indoors, connect via Wi-Fi to use Spotify Connect and Airplay 2 (for Apple users). And when you take Devialet Mania outdoors, Bluetooth® auto-activates.

YOUR VOICE IS ITS COMMAND.

Voice assistant capabilities let you control your Devialet Mania for a seamless experience anywhere in the house. When connected to Wi-Fi, simply beckon "Alexa" and enjoy the full ease of a voice-controlled speaker: listen to the news, check the weather, control smart home devices, or simply turn up the volume and give in to pure sound
