### PRODUCT DETAILS

Size

**98 DB SPL**, 95 DB SPL

#### **THIS IS NO SMALL REVOLUTION.**

This is Phantom II, a new breed of wireless speaker. By stretching size and performance beyond reasonable limits, Devialet engineers have brought to life the only ultra-compact home sound system capable of delivering high fidelity and physical impact, whatever volume you listen at. Insanely powerful. Defiantly small. You won't know what hit you.

#### **SERIOUSLY SOPHISTICATED. HUGELY ADDICTIVE.**

Meet the most extreme concentration of high technology known to any sound system: 981 parts protected by 160+ patents. Phantom II is the first home speaker designed to take you deeper into sound.

From 18Hz to 21kHz, feel every note with phenomenal purity, precision and richness. 0 distortion, 0 saturation and 0 background noise ensure you get nothing but audiophile-grade playback, even at maximum output. A habit you won't want to quit. Find out what you're both capable of.

#### **ADH® Analog Digital Hybrid**

ADH®, or Analog Digital Hybrid, is a Devialet patented technology that combines the sophistication of analog Class A amplifiers with the power and compactness of digital Class D amplifiers. The best of both worlds. For sound amplification of unprecedented clarity and transparency, regardless of volume. A masterpiece of electro-acoustic engineering, the Phantom II uses the same amplification technology as the Phantom Premier while taking compactness and efficiency to a new level. breathtaking.

#### **SAM® Speaker Active Matching**

We developed the SAM® mathematical model to ensure flawless audio fidelity throughout playback. Whether dealing with transients or stationary signals, the amount of information processed by SAM® exceeds anything previously thought possible. Phantom can reproduce the exact rhythm and tempo of your music with absolute precision. So you can feel every single emotion, true to the original.

#### HBI® Heart Bass Implosion

HBI® is a unique system that brings you even deeper sound. For the first time, an ultra-compact home speaker is able to reproduce incredibly deep bass that resonates beyond the limits of the human ear, throughout the body. Unleash the full potential of your music. Down to 18Hz. The Phantom II is built around a novel structure: two hermetically sealed woofers operating simultaneously and under extreme pressure. The sheer thrust behind each side woofer creates a physical effect unheard of in speakers this small. Get ready for infra-bass you can feel.

#### ACE™ Active Cospherical Engine

ACE™ is the technology responsible for Phantom II's radical spherical architecture. Based on Olson's principle of the pulsating sphere, the Phantom II drastically optimizes the shape and propagation of sound waves: uniformly and in all directions. A homogeneous sound without refraction of the sound on the speaker surface. Immerse yourself in the sound. By deciding to design Phantom II as a complete speaker system, our engineers were able to create a more spacious sound than ever before with even more clarity in the high end.

#### EVO platform

The Phantom II was built to last. Our EVO platform brings you the latest updates, wirelessly and hassle-free. Regular performance and compatibility improvements keep your system up to date. Simply connect to the Devialet app and let EVO cybernetics do the rest. RIP, planned obsolescence.

#### THIS CHANGES EVERYTHING – EXCEPT YOUR TAKE ON MUSIC.

Whether you're used to Bluetooth or Wi-Fi, optical or analog, Phantom II's open architecture lets you have it your way. AirPlay®. UPnP. Spotify Connect. Get straight to the music you love.

- Airplay
- Spotify Connect
- Bluetooth
- UPnP
- Optical Cable
- Analog

#### SOLO OR DUO: HOW FAR WILL YOU GO?

More than you bargained for, Phantom II's spherical design radically redefines Solo performance. Experience beautifully rich and unspoiled acoustics, wherever you are.

Our latest software update introduces stereo to Phantom II, creating the widest possible sound stage from ultra-compact speakers. In Duo mode, Phantom II delivers even more power and emotion, immersing you in your favorite music, movies and games.

#### TAKE CONTROL. OR LOSE IT.

Reach out and make contact. Phantom II will behave – unless you decide otherwise. Skip to your favorite track. Let the woofers run wild. Demand total silence. Touch controls give you total command of the situation with a single stroke.

And if you'd rather stand back, the new Devialet app lets you interact with Phantom II from a distance with absolute precision. Pushing the button on unreasonable sound has never been easier. Your call.

#### LOOKS XXS. SOUNDS XXL.

Unreasonably compact for a system this powerful, Phantom II fits in almost anywhere. Made for compulsive listening experiences, the new easy-to-carry Phantom features every available Devialet technology in under 3 liters. Sound that really moves? You bet.

What's in the box

- 1 Phantom II
- 1 Power cord
- 1 Quickstart guide

Specs

Product Attributes

EAN:	3663424010450
Manufacturer number:	GG874
Product weight:	8.5 kilograms
Pieces per master carton:	1 Piece

Dimensions and Weight

Product height:	16.8
Product width:	15.7
Product length:	21.9
Product weight:	4.3

Speaker specifications

Woofers:	2 x Aluminum Bass drivers
Full-range elements:	1 x Aluminum Full-Range driver
Total effect:	400
Maximum sound level:	98 dB SPL at 1 meter
Frequency response:	18-21000

Audio Inputs, Codecs & Formats

Audio inputs:	Wifi Ethernet Optical 3.5mm Jack
Bluetooth codecs:	AAC SBC
Music streaming services:	Spotify
Wifi:	Wifi 2.4GHz/5GHz

Control Methods

Controls:	On Device Remote Control App Controlled
Controller app:	Roon Ready Apple Airplay 2 Proprietary App
