### PRODUCT DETAILS

Robust and lightweight: the perfect companion for your visual adventures

With the GOVIEW® ZOOMR™ 8x42 you carry a companion that combines brilliant sharpness of detail and a compact design in a robust glass fiber reinforced plastic housing with a large field of view. This means that the object always remains in view, even during b movements. Thanks to a zoom factor of 8x, you can bring distant details 8x closer to you on your travels, during sports or when observing nature. So a distance of 100 meters quickly becomes 12.5 meters - convinced? Then all you have to do now is to choose your favorite color: Oak Green or Phantom Black.

Discover the unique details of your world with style and innovation

Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with an elegant design and many technical refinements for your use in nature, travel, sports or daily life.

To provide you with a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many highquality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing - without weighing much.

The complete optics are optimized for a maximum field of view and all lenses are multi-coated. In addition, the innovative design guarantees maximum ergonomics, so that you have a firm grip on your binoculars on all adventures - and if you don't have a hand free, the high-quality carrying strap ensures that you always have them at hand.

If you wear glasses, you can easily adjust the binoculars and monoculars of the GOVIEW® ZOOMR™ series to your needs with the extendable eyecups - alternatively, you can of course adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a wide range of accessories: a high-quality carrying case, protective caps, a cleaning cloth, our PORTR™

carrying strap and the universal CLOSR™ smartphone adapter, to share your impressions online.

Now it's your turn, discover the GOVIEW® product world and experience your life with different eyes

**Specs**

**Product Attributes**

EAN:	4260527415985
Manufacturer number:	GB1201
Product weight:	0.0 kilograms

**Optical Parameters**

Magnification:	8x
Objective lens diameter:	42
Eyepiece and objective coating:	Fully Multi Coated
Prism:	BAK4
Pupil distance:	56-76
Field of view (degree):	7
Field of view (meter):	124
Exit pupil:	5.2
Eye relief:	17.3
Close focus:	3-

**Features**

Rotating eyecups:	true
Filling:	Nitrogen
Material:	Glass-fiber reinforced plastic GFRP

**Durability**

IP classification:	IPX5
Operation temperature:	-10° C to +65° C

**Dimensions and Weight**

Product height:	5.18
Product width:	13.16
Product length:	14.55
Product weight:	0.59
