PRODUCT DETAILS

Heated Percussive Plus Attachment
The Heated Percussive Plus Attachment prepares your muscles 3x faster than percussive massage alone. With three science-backed temperature levels, it helps to relax stiff muscles, reduce soreness and relieve pain.

Power your performance with faster muscle prep
Heated percussive massage prepares muscles 3x faster than percussive massage alone, helping you optimize your warm-up and maintain peak performance.

How does heated percussive therapy work?
Heat therapy helps to boost circulation, ease stiffness and relieve muscle pain and soreness. When combined with percussive massage, they enhance each other's benefits, helping you recover faster and get the most out of your workouts.

Heated Percussive Therapy
Three science-backed temperature settings: 45°C/113°F, 50°C/122°F, 55°C/131°F

Product Specifications
