PRODUCT DETAILS

Epic Lab Quality Sound

Experience room shaking, 360-degree sound with 100 watts of power, four 2.5" full-range drivers, one 5" passive woofer and one 5.25" subwoofer. The Epic Party Speaker is designed to deliver deep bass, crisp highs, and balanced audio that keeps party thumping all night. With 16+ hours of playtime (14+ hours with RGB lighting), you'll never miss a beat.

Party Lights

Light up every celebration with vibrant, customizable RGB lighting. Choose your colors, patterns, and sync effects to match the mood using the JLab App. Whether it's a chill night or an all-out bash, the Epic Party Speaker makes sure your setup looks as good as it sounds.

LabSync: Your Ultimate Party Sync

Ready to turn your party into a sonic playground? LabSync lets you sync the sound and lights for up to 100 JLab Party speakers, transforming every space into a party zone. Imagine a symphony of sound, perfectly synchronized with electrifying beats. With LabSync, your party knows no bounds.

Customize Your Sound + Experience via JLab App

With the JLab App, customize the RGB lighting, controls, and sound to your personal preference - or use the EQ4 presets for JLab Signature, Balance or Bass Boost. Plus, get software updates for your product right when they're available. Available on the App Store or Google Play Store.

Party Everywhere

Built for real-life parties, the Epic Party Speaker is IP56 waterproof and made to handle splashes, spills, and rain. Need an extra charge? Tap into the USB-C output to keep your phone fully charged. A sturdy built-in handle makes it easy to carry from place to place, so you can bring epic sound and lighting to the pool, the park, or wherever the night leads.
