PRODUCT DETAILS

Storm-Level Power with 1–100 Adjustable Speeds
This portable fan features an ultra-powerful 43,000 RPM motor with 100 adjustable wind levels. The maximum airflow can reach 17 m/s. Simply rotate the scroll wheel to fine-tune the cooling level to your preference. Press and hold the button for 3 seconds to activate Storm Mode (Speed 100) for an instant burst of powerful airflow, and release to return to the previous setting.

Large 9000mAh Battery with 18W Fast Charging
Equipped with a 9000mAh rechargeable battery, this handheld fan can run for up to 25 hours depending on usage, keeping you comfortable throughout the day. It supports 18W fast charging for quick power recovery and can also function as a power bank to charge your other devices, making it a reliable companion for travel and camping.

Digital Display with Multi-Mode Flashlight
The built-in digital screen allows you to clearly check the current wind speed and remaining battery level at a glance. The fan also includes a rear flashlight with three brightness levels and one flashing mode, offering extra visibility and safety during camping, hiking, or emergency situations.

Enhanced Safety Design
Designed with a honeycomb air inlet structure that helps prevent hair from getting caught during use. The removable rear cover allows easy cleaning to maintain fresh airflow. A safety lock switch helps prevent accidental activation during transport or storage—turn the switch to “O” to power off and “-” to enable operation.

Compact, Durable, and Multi-Purpose
This travel fan features a durable metal body and a compact design for easy portability. It also includes two magnetic air nozzles, allowing it to function as a dust blower or inflation tool. Perfect for cruises,
