

# Milo Action Communicator - Equinox Black

251256

Milo revolutionizes the way we communicate on outdoor adventures. Forget about push-to-talk walkietalkies that only allow one person at a time to speak. Milo lets you and your friends enjoy hands-free group voice chat while on the move. No phones or Wi-Fi needed. Milo creates its own secure MiloNet™ mesh network so that everybody in the group can share the moment, in the moment.

Colour

PRODUCT DETAILS

**Waterproof and rugged**
Milo is designed to meet the challenges you face on all active adventures. It is impact resistant, dust- and waterproof and can be fully submerged in water.

**The unique Milo clip**
Designed to be worn on your body, the unique Milo clip system uses a magnet to snap in your Milo and trigger a secure mechanical lock that keeps Milo in place even on the roughest rides.

**Multi-way voice**
All members in a group can speak naturally, including talking over each other.

**Advanced wind noise reduction**
Six digital low-distortion microphones and sophisticated wind- and background noise reduction deliver clear voice in all conditions.

**All day battery**
The integrated rechargeable lithium polymer battery provides a full day of use under normal conditions, even in cold weather. If needed, you can use a portable power bank to charge Milo while still talking to your group.

**Milo Mesh Network**
Your Milos create a secure mesh radio network. No Wi-Fi or phone signal needed. The range between two grouped Milos in clear terrain is usually at least half a kilometer (third of a mile), often more. Range is affected by many factors. The MiloNet™ network extends your group's overall range when the group spreads out.

**Private and secure**
Milo creates an encrypted network for your group. That means you don’t need to pick a channel, and nobody outside your group can listen in on your conversations.

**Headset optional**
Milo can be used with or without a headset. Connect with your favorite Bluetooth or wired headset for that in-ear sound experience.
