255960

Withings Body Comp Wi-Fi Smart Scale: precise weight to 50g, body composition, cardiovascular assessment with Vascular Age, and Nerve Health Score. 15-month battery, auto-tracks 8 users.

Colour

PRODUCT DETAILS

Advanced body composition monitoring

Stay on top of your health by tracking 8 precise body metrics over time, including body water % and muscle mass, as well as insights like visceral fat and basal metabolic rate to get a complete body picture.

Heart health assessment

Take a closer look at your cardiovascular health by performing a vascular assessment and tracking your heart rate at each weigh-in.

Nerve tracking, for better health

Follow your nerve health over the long term, to detect peripheral autonomic neuropathies, one of the long-term complications of diabetes*.

Best-in-class weight experience

Get consistent, precise weight measurements (50 g) and monitor your improvement on the scale's high-visibility color screen.

All-in-one health app

Monitor all your daily health metrics with the free Withings app for iOS or Android, where you'll see trends, progress and daily inspiration for long-term improvement, while enjoying best-in-class privacy.

Multi-user friendly

Automatic recognition for up to 8 users, plus dedicated modes for babies, pregnancy, athletes, and those who want to track weight without seeing a number at weigh-ins.

The Withings Scale experience

Enjoy a high-res color screen, 15-month battery life, and seamless Wi-Fi or Bluetooth sync to our app, which is also compatible with Apple Health and Google Fit.

What's in the box

- Body Comp
- AAA batteries
- Carpet feet
- Product guide
- Quick Start Guide

Withings Body Comp is a medical device that allows for detection and follow-up of peripheral autonomic neuropathy, thanks to the Nerve Health Score feature. Self-diagnosis and self-treatment can be dangerous. Always consult your doctor in case of questions or doubts.
