

Véritable Pollenization Brush

254334

Perfectly suited for pollinating flowers, this brush is essential for growing mini fruits and mini vegetables from the Lingots® Véritable® collection. Its shape and the hardness of its bristles is specially studied not to spoil the flowers and guarantee fruiting!

PRODUCT DETAILS

This must-have tool is useful for manual pollination of wild strawberries, mini bell peppers and hot chillis. Pollination is the act of transferring pollen grains from the male anther of a flower to the female stigma. It is the way that plants can produce fruits and vegetables.
