Marshall Stockwell III, Black & Brass

257341

Stockwell III is made to follow you and then take the lead. Just grab the carrying strap and move between rooms and out to the garden or balcony, keeping your favourite songs right by your side. With 40+ hours of portable playtime, it's easy to set the tempo throughout the day. Wherever you are around the speaker, its powerful 360° sound finds its way to you. Dust and water resistant, this portable Bluetooth speaker is built to handle everyday knocks and splashes.

PRODUCT DETAILS

40+ HOURS OF PORTABLE PLAYTIME

From getting creative to winding down, home is where it happens. However you're passing the time, your music should always be on hand as a constant source of entertainment or inspiration. Lights on to lights out, with 800 songs at your disposal, Stockwell III packs your day with uninterrupted listening sessions that last. Every hour is filled with music that stays with you, all throughout your home.

DUST & WATER RESISTANT

Stockwell III is at home indoors but never afraid to venture outside. Sure, it may look more like a timeless design piece, but don't be fooled. Wherever it's standing, this speaker can now brave dust as well as splashes of water from all directions. This is all thanks to its upgrade to an IP55 rating. Confidently carry and set it down anywhere in and around your home knowing it will still deliver legendary sound.

DYNAMIC LOUDNESS

In those rare times music doesn't need to steal conversation, Stockwell III has you covered. For those who love to listen at lower volumes, the bass and treble rise to keep the kick and clarity. This ensures the most important sound details are never lost. When it's time to raise the volume, your music levels out to a natural balance, just how it should. Find your sound and let it resonate.

TACTILE CONTROLS

Interacting with your Stockwell just got easier. Now in its third iteration, the classic brass control panel has been given a big update. A brand-new standalone M-button, and media jog join the heritage amp-inspired knobs, Bluetooth button, and battery indicator. Surrounding the knobs are distinctive red LED lights that indicate the volume, bass, and treble levels. Designed to impress, this timeless Marshall look is sure to steal gazes around your home.

CHARGING BANK

When you're streaming music from your phone, running out of battery should not be the reason the music stops. With a USB-C port and AUX input, you can charge compatible devices while you keep listening. Whether you're settling into a focused session at home or spending the day outdoors, your music stays turned up and on loop. Plug in, power up, and let your sounds play on.
