Therabody

TG Attachment Supersoft

256839

Therabody Theragun Supersoft Attachment: an ultra-gentle, soft-touch head that dampens percussive power for sore muscles and tender joints. Includes 2 foam replacements.

Colour

PRODUCT DETAILS

Supersoft Attachment
The Supersoft Attachment is ultra-gentle and soft to the touch for particularly sore muscles or areas of your body that need a lighter touch. Perfect for sore and tender areas around elbows, knees and joints. Includes 2 foam replacements.

A softer touch for extremely sore muscles and joints
Sore muscles and joints can be so painful that even light massage feels uncomfortable. Supersoft dampens the power of the percussive massage while still increasing oxygen delivery and blood flow to the area.
