PRODUCT DETAILS

Criseal 200 SS Auto Vacuum Food Container
Use vacuum technology to keep food dry at all times.

Petaboo Criseal 200 SS is the world's first automatic vacuum food container primarily made from premium food-grade materials, designed to keep pet food and dry goods perfectly fresh, dry, and hygienic through advanced continuous pressure stabilization.

The Petaboo Criseal 200 Auto Vacuum Food Container is an innovative storage solution engineered to safeguard your pet's health by preventing food from getting damp or contaminated by bacteria. This container blends practical utility with high-end home decor, featuring premium brushed 304 Stainless Steel food-grade material. Equipped with four built-in sensors and an automatic pressure control system, it actively monitors and constantly maintains an optimal vacuum level of -15kPa to seal in maximum freshness. Designed for seamless everyday use, it offers a large opening capable of holding entire food bags, a quick 1-second instant open lid, and a fully dishwasher-safe, detachable design. With its long-lasting 4000 mAh battery, a rapid 2-hour charge via Type-C delivers up to 60 days of reliable freshness retention, making it highly versatile for storing kibble, freeze-dried treats, coffee beans, grains, or rice.

Auto Pressure Control
Auto vacuum control at -15 kPa preserves food freshness and crispness. Two Hall switches detect lid closure, a sensor provides real-time vacuum pressure monitoring, and the system maintains a constant -15 kPa vacuum pressure inside the container.

Simple Vacuuming & Food Access
Closing the lid triggers an automatic vacuum seal, and opening the lid delivers instant pressure relief within 1 second.

Long-Lasting, Removable Battery
A 4000mAh battery fully charges in 2hrs (5V/2A) and lasts for 2 months on a single charge. The battery

module is removable for quick and convenient charging.

Battery Status Indicator

- Red flashing light: below 20% battery
- Green flashing light: between 20% and 60% battery
- White flashing light: above 60% battery
- Solid white light: fully charged

Capacity: 13 l/6 l
This storage container is available in two sizes and offers a generous capacity of 13 litres (6 kg), making it ideal for large bags of cat or dog food. Beyond pet food, its large opening is perfect for storing coffee beans, rice, grains and all kinds of dry goods. This ensures your food stays fresh and crisp at all times.

4X Longer Freshness
After 14 days, food stored in the Petaboo Auto Vacuum Container stays fresh up to 4 times longer than food kept in a regular container.

Food Grade 304 Stainless Steel
Prevents bacterial growth to ensure food safety and hygiene. The container resists warping, locks the seal, and defies heat.

Specifications

- Model: C200 SS
- Color: silver + black
- Material: Main body 304 Stainless Steel, top cover ABS material
- Capacity: 13L
- Battery: 18650, 4000mAh
- Charging time: fully charged in 2hrs (5V/2A)
- Battery runtime: fully charged, lasts for 2 months
- Vacuum pump: flow rate 1.5L, lifespan 200h
- Vacuum time: 2 minutes and 30 seconds to achieve full vacuum in an empty bucket
- Vacuum negative pressure: -15 kPa
- Pressure relief: 1s
- Noise: 40 dB
- Hall switch: 2
- Wall thickness: 1.5 millimetres min, 3 millimetres max
- Product size: 10.8x8.6x12.1in / 275x218x308mm
- Weight with packaging: 9.5lb/4.3kg
- Product packaging size: 12.1x9.4x13.3in / 309x239x339mm
- Safety standards: US FCC & UL; Japan PSE & ETMI, RoHS; EU CE

What's in the box

- Petaboo Criseal 200 SS
- Lid
- Vacuum module
- Scoop
- Type-C charging cable
- User manual
- Decorative sticker
