PRODUCT DETAILS

Home Made Ice Cream is a Breeze

With Vanilla, crafting delicious homemade ice cream is a breeze. Just add your favourite ingredients, start the machine, and in just 60 minutes, you'll have 1.5 litres of mouthwatering homemade ice cream. Thanks to its fully automatic compressor, Vanilla freezes and stirs the ingredients simultaneously, eliminating the need for pre-freezing. The result? Exceptional homemade ice cream made with unparalleled simplicity.

Ease of Use and Cleaning

Cleaning Vanilla after use is a breeze, thanks to its removable parts. The transparent lid with an opening allows you to effortlessly add ingredients while the machine is running, making the process even more convenient.

Design and Display

Vanilla features a sleek stainless steel design, complemented by an LCD display and digital timer on top of the machine. The display provides real-time updates on the remaining time and the current mode of operation (stirring/freezing), ensuring complete control and convenience.

Extended Cooling

Even after the ice cream is ready, Vanilla keeps it frozen for an additional 60 minutes, maintaining its perfect texture and temperature for you to savor at your leisure.

Features

- Power 150 watts
- 1.5 l capacity in a steel bowl
- Make ice cream in 1 hour
- Fully automatic compressor, freezes during preparation
- Brushed steel
- LCD display with digital timer
