

Wilfa Smooth Blender 1000W, 1.5L Steel

251941

Wilfa Smooth is a blender that is perfect for preparing your smoothie or iced coffee. Smooth is practical and reliable with both pulse function and smoothie and ice crush programs.

PRODUCT DETAILS

A blender for everyday use to make smoothies and other drinks. The easy-to-use blender with adjustable speed and three automatic programs makes use simple and effortless. The automatic programmes are ice crush, smoothie and pulse. Thanks to the high quality blades, ice crushing is also effortless.

The jug

The jug, made of durable glass, has a capacity of 1.5 litres and a filling hole for easy addition of ingredients or liquids while the machine is running.

3 different programs

The blender has 3 different programs that give you the right speed and power for the most commonly used functions. For example, the ice crushing program efficiently crushes ice and the smoothie program gives you a smooth and fluffy smoothie. The pulse program lets you increase the speed in pulses.

Blades

The blades can be removed from the glass jug for easy cleaning. The high-quality 4-blade blade unit also crushes ice with ease.
