

## AWOL VISION ThunderBeat 4.2.2 Home Theater sound system

254697

The AWOL ThunderBeat 4.2.2 surround sound system combines ultra-high-quality audio with wireless convenience. Equipped with two powerful 120W subwoofers and CenterSync technology for clear dialogues, it delivers an immersive home cinema experience—ideal for large screens and impactful audio without cable clutter.

### PRODUCT DETAILS

The AWOL ThunderBeat 4.2.2 surround sound system brings powerful, wireless sound to home theaters. Featuring two 120W subwoofers and advanced Dolby Atmos technology, it creates a wide sound field that's perfectly suited for large-screen projections. The innovative CenterSync technology enables the UST laser projector to function as a center speaker, delivering clear dialogues and immersive audio. With easy setup and minimal cabling, ThunderBeat is a high-quality alternative to traditional soundbars—perfect for big-screen home cinema.
