

Wilfa Xplode 1800W Blender, 1.8 liter. Steel

251942

The Wilfa Xplode is a powerful blender with a large capacity of 1.8 litres and a motor power of 1800 W. In this blender you can also make hot dishes such as baby food and soups as the glass in the jug is made of borosilicate and can withstand temperatures up to 90°C.

PRODUCT DETAILS

A really powerful 1800W blender for versatile use! This blender makes smoothies and other drinks, soups, sauces and more effortlessly. You can easily adjust the speed and power as needed, or use the automatic programs for smoothies and ice blending. Thanks to the high-quality blades, ice crushing is a breeze too. This blender also has a separate cleaning program to quickly clean the blender after use.

Programs

The blender has 3 different programs that give you the right speed and power for the most commonly used functions. For example, the ice crushing program efficiently crushes ice and the smoothie program gives you a smooth and fluffy smoothie. This blender also has a separate cleaning programme, which makes cleaning the appliance after use very quick and easy: just rinse the jug and fill it halfway with water. Add a few drops of dishwashing liquid, secure the lid and place the jug on the body. Start the cleaning programme. At the end of the programme, rinse the jug with clean water and set aside to dry.

Heat-resistant jug

Made of highly durable borosilicate glass, the jug has a capacity of 1,8 litres. The filling hole in the lid makes it easy to add ingredients or liquids while the appliance is running. This jug is heat resistant up to 90°C.

Blades

The high quality blade unit also crushes ice with ease. The blade is removable from the glass lid for thorough cleaning.

Motor

The extremely powerful 1800 watt motor crushes and mixes even the most challenging materials effortlessly. This powerful motor is built to last - and Wilfa offers a 5-year warranty!
