PRODUCT DETAILS

Compact Size, Powerful Features
The JISULIFE Pocket Bear Fan combines a cooling fan, flashlight, and backup power bank in one compact device. Small yet multifunctional, it helps you stay cool during hot days while offering practical features for everyday use.

12–19 Hours of Cooling
Enjoy long-lasting airflow with up to 19 hours of cooling on a single charge. This mini handheld fan keeps you comfortable during travel, concerts, and outdoor activities. It can be easily recharged through a USB connection.

Palm-Sized Backup Power Bank
Designed to be pocket-friendly, this portable fan fits easily into your bag for convenient carrying. It also works as an emergency power bank, allowing you to charge your devices whenever you need extra battery on the go.

Built-in Flashlight
The fan also includes a flashlight function. While it may not be the first feature you expect, it becomes extremely useful when walking outside at night or when you need quick lighting.

3-Stage Foldable Design
The three-stage foldable design hides the blades for safer storage and portability. Fold it to 180° to use it as a handheld fan, or extend it to 270° to place it on a desk as a small desktop fan.

Perfect for Travel and Everyday Use
This 3-in-1 mini fan is ideal for travel, concerts, makeup sessions, eyelash applications, commuting, weddings, camping, office work, or school. It also makes a great gift for occasions like Halloween, Thanksgiving, Christmas, or Valentine’s Day. A fun and practical gift for women, girls, kids, grandmas, and friends.

Tiny Body, Massive Energy
Don't let its size fool you—the JISULIFE Pocket Bear Fan packs a robust 2000mAh battery into its pocket-sized frame. It delivers hours of continuous, refreshing breeze on a single charge, ensuring you stay cool and connected from morning commutes to evening outings without constantly hunting for an outlet.

How to Open
Method 1: Use the small gap between the cover and the fan body to gently open it.
Method 2: Press the base where the USB connectors are located; the upper body will pop out slightly, allowing you to pull it open.

How to Use
Short press the button to turn the fan on or off and switch between different speed levels.
Long press the button to activate or turn off the flashlight. Please note that the fan and flashlight cannot operate simultaneously.
