PRODUCT DETAILS

Refined Design with a Premium Touch
Introducing Jisulife’s first handheld fan crafted with an original PU leather finish. Soft, smooth, and thoughtfully detailed, it blends elegance with everyday practicality.

Powerful Performance, Tailored to You
Powered by our proprietary motor, this fan delivers airflow beyond the ordinary. With 100 precise speed levels, it adapts effortlessly to every setting—from ultra-quiet environments like offices or churches to powerful cooling for summer heat and live events.

Long-Lasting Comfort Throughout the Day
Equipped with a 4250mAh battery, it provides 3 to 30 hours of cooling depending on the selected speed. A quick 2–3 hour recharge ensures it’s always ready, from your morning commute to evening activities.

A New Dimension of Freshness
Featuring an innovative magnetic aroma pod, this fan allows you to add water-based essential oils (not included) for a subtle and refreshing experience. With 5 replaceable pads included, it keeps you feeling fresh throughout the day, whether indoors or outdoors.

Smart Details for Everyday Use
A clear digital display shows real-time speed settings, while a simple double-tap reveals the remaining battery level. The rear honeycomb grille helps prevent hair from being drawn in, and the safety lock avoids accidental activation during storage or travel.
