

Wilfa Svart Nymalt Coffee Grinder, Silver

251923

You get the best coffee by grinding your own beans. With the Wilfa Svart Nymalt Coffee Grinder, you can grind your beans into anything from finely ground mocha coffee to coarse cooking coffee.

PRODUCT DETAILS

SVART NYMALT - FOR NORDIC TASTE

With our Svart Nymalt coffee grinder and whole beans in your pantry, you're always close to great coffee experiences. Grinding your own coffee makes it easier to get your cup to taste just the way you want it and gives you more opportunities to explore your personal taste. Just the wonderful smell of freshly ground beans in your kitchen is in itself a strong reason to get your own grinder. It's also a way to make sure you always have fresh, tasty coffee at home.

Motor

The Svart Nymalt has a low-speed motor that generates little heat, which means that the aroma and flavour of the coffee is preserved as well as possible.

Conical grinder

The coffee grinder has a conical grinder that ensures fast and even grinding of the coffee beans, giving a perfectly ground end result.

Many settings

Choose from grinding everything from the finest mocha to coarse cooking coffee. With this coffee grinder, there are many different grind settings so you can find the setting that gives the perfect taste for you.

Easy to use

Easily adjust the grind settings by turning the bean hopper, the bean hopper will guide you which setting is suitable for which type of coffee.

Timer

With the 30-second timer, simply set the time according to the amount of coffee and then the grinder will shut itself off.

Easy cleaning

Removable parts make it easy to maintain and clean your grinder.
