

Wilfa Icy slush machine, 2 liter capacity, 5 programs

255113

Enjoy refreshing, ice-cold slush at home – easily and quickly. Perfect for warm summer days, birthdays, barbecues, or a relaxing break in your daily routine. With a powerful motor, efficient cooling technology, and smart settings, both kids and adults can create their favorite drinks with optimal consistency every time. The Wilfa Icy lets you make refreshing slush in as little as 15 minutes under optimal conditions, when using a small amount of cold liquid. If the container is filled to its maximum capacity (up to 2 liters) with room-temperature ingredients, it may take up to 45 minutes. The large, user-friendly container is easy to fill, and with a press of a button, the machine takes care of the rest.

PRODUCT DETAILS

Slush in 15–45 Minutes. Depending on Liquid Temperature and Amount

The Wilfa Icy lets you make refreshing slush in as little as 15 minutes* under optimal conditions, when using a small amount of cold liquid. If the container is filled to its maximum capacity (up to 2 liters) with room-temperature ingredients, it may take up to 45 minutes. The large, user-friendly container is easy to fill, and with a press of a button, the machine takes care of the rest.

*Preparation time varies based on liquid temperature and volume. Based on internal tests, slush can be ready in 15 minutes with cold liquid and a minimum quantity.

5 preset programs for perfect results

Customize the consistency and taste of your slush with five specialized programs:

- **Slush** – Perfect for juice, soda, and other sugary drinks
- **Frappé** – Create creamy coffee- and tea-based drinks
- **Milkshake** – Ideal for milk, yogurt, or plant-based alternatives
- **Slush cocktails** – Make festive drinks like margaritas, piña coladas, or rosé slush
- **Cold drinks** – Perfect for juice (without pulp), soda, and refreshing summer beverages

Easy use & cleaning – designed for everyday life

• **User-friendly touch panel** – Add ingredients, select a program, and the machine will notify you when your drink is ready.

- **Drip-free tap** – Serve your cold drink directly into a glass without spills.
- **Fast cleaning** – Removable parts are dishwasher safe, and the built-in cleaning program makes cleaning as easy as preparation while saving time.

Quiet operation

The machine is quiet, allowing you to make slush without disruptive noise. Perfect for both home and parties.

Timer function – plan your drinks

Plan your perfectly chilled drinks with the 24-hour timer function. Prepare your drink well in advance for a party or a cozy moment. (Note: The timer function is recommended only for ingredients that do not require refrigeration.)

Tips for perfect slush every time

- Use ingredients with at least 6% sugar content for a smooth consistency.
- If adding alcohol, do so after the slush is ready for faster freezing.
- Use chilled ingredients for better results and shorter preparation time.
- Clean the machine thoroughly after use to keep it in top condition.

Make homemade slush, frappé, milkshake, and cocktails. Quickly, easily, and always with perfect results.
