

JLab Go Party Speaker, Navy

255595

GO get the party started with the Go Party Speaker, where powerful Lab Quality sound meets non-stop fun. With its sleek cylindrical design and loop handle, this speaker transforms any space into the perfect party zone. Delivering impressive audio from dual 2" full-range drivers and dual 2" passive woofers, this 10-watt portable powerhouse produces rich, deep bass and crystal-clear highs (80 Hz - 18 kHz). Customize both audio and lighting effects through the intuitive JLab app, setting the perfect vibe for any gathering. Don't let a splash dampen the celebration, with IPX6 waterproofing, this speaker keeps the party going. Take your festivities to the next level with LabSync mode and sync up to 100 speakers for the ultimate block party.

PRODUCT DETAILS

Powerful Lab Quality Sound

Enjoy room-filling, concert-quality audio from dual 2" full-frequency drivers and dual 2" passive woofers that deliver powerful volume with rich, deep bass and crisp, detailed highs. This portable Bluetooth powerhouse brings enough sonic punch to energize any space while maintaining audio clarity even at high volumes. With its impressive 16 hours of playtime (8+ hours with RGB lighting), you can keep your playlist going from sunset to sunrise.

Party Lights

This portable powerhouse lights up the party with vibrant RGB lighting. Customize the color, pattern and frequency to match the vibe via the JLab App. From solo fun to a fiesta, the Go Party speaker has you covered.

LabSync : Your Ultimate Party Sync

Ready to turn your home into a sonic playground? LabSync lets you sync the sound and lights for up to 100 speakers, transforming every room into a party zone. Imagine a symphony of sound, perfectly synchronized, filling your home with electrifying beats. No more missing a moment, no matter where you are. With LabSync, your party knows no bounds.

LabSync Stereo Pairing

LabSync offers an advanced feature to upgrade your audio experience. Designate any JLab Party speaker as left or right channels through the app to create a powerful 2-channel stereo system for a

bigger sound stage and immersive listening experience. You'll enjoy dimensional audio that puts instruments and singers where they belong, transforming everything from house parties to movie nights with rich, balanced sound that fills your space.

GO Party Everywhere

Don't worry about splashes or light rain dampening your party! The JLab Go Party is IPX6 rated, meaning it's built to withstand the elements. An integrated loop handle makes the Go Party Speaker easy to transport and hang. Whether you're poolside, at the beach, or someone spills a drink, the music won't stop.

Customize Your Sound + Experience via JLab App

With the JLab App, customize the RGB lighting, controls, and sound to your personal preference - or use the EQ3 presets for JLab Signature, Balance or Bass Boost. Plus, get software updates for your product right when they're available. Available on the App Store or Google Play Store.
