Marshall Bromley 450, Black & Brass

256320

Whether the party is indoors or out, don't worry about sacrificing the sound quality. This portable speaker lets everyone know the party is on thanks to True Stereophonic 360° sound that travels far. It can play free from wires for 40+ hours and take a bit of dirt and water, so no need to stay inside. The integrated stage lights make it the centre of attention in any setting. Living room, festival or backyard – this Bluetooth party speaker goes the distance.

PRODUCT DETAILS

Whether you're dancing at a house party or festival campsite — the music always feels close with a sound that gets around. Regardless of where you stand, every beat finds its way to you for maximum impact. Drivers on the front and back, as well as tweeters on each side, let you slip right into dancefloor mode for an unparalleled experience. All you have to do is press play to let everyone know the party has started.

40+ HOURS OF PORTABLE PLAYTIME
They say nothing good happens after 2am but with Bromley 450’s long playtime that’s for you to find out. Made to keep the party going no matter where you are, this speaker lets you play 800 songs back-to-back. Buy an extra battery to keep on standby for when power is running low, or use the AC cable to plug in your speaker. This can also be used to recharge your battery.

INTEGRATED STAGE LIGHTS
We’ve been the life of the party since 1962, so we know what makes for a good light show. Take it back to your best gig memories with three presets that each add to the energy of the party in their own unique way. The first preset creates the perfect ambient lighting to get going to, while the second and third turn things up even more by dynamically moving to the music. Now you can light up the dancefloor, literally and figuratively.

MIC & INSTRUMENT INPUTS
The most memorable shows are the ones you didn't expect. With inputs for both mic and instruments, you can turn the party into an impromptu gig or karaoke session without any hassle. So add that live musical layer and give your friends a night to remember.

DIRT & SPLASH RESISTANT/h3>
With Bromley 450’s IP55 rating it’s easy to pick your next party location. Park, festival or backyard —

dirt and water splashes are no problem for this portable speaker. It’ll keep the party going anytime, anywhere. Taking a bit of a break in between parties? Don’t worry. A bit of dust during downtime won't hurt it either.

BUILT-IN HANDLE
Take the party as far as you can go. Having brought music on the road since way back when, we knew what we were doing when designing this impressive party speaker. With its built-in handle, Bromley 450 is easy to bring with you no matter how secret the location. Whether you want to go all out at the beach or set the mood in the festival camp, just pop it in the trunk of your car or carry it on the train.
