

# Magnetic Latch Mount

254272

The Magnetic Latch Mount makes it easier than ever to move your HERO13 Black between mounting setups.[1] Attach it to your favourite handheld grip or body mount to quickly change your POV. It uses magnets to line up your camera, so all you do is snap it in place with the auto-engaging dual latches—no thumb screw needed. Simply pinch the latches to release your camera.

PRODUCT DETAILS

The Magnetic Latch Mount makes it easier and faster than ever to move your HERO13 Black between mounting setups.[1] Simply attach it to your favorite handheld grip, body mount or other gear setup to quickly change your POV on the trail, slopes or water.[2] The Magnetic Latch Mount uses magnets to line up your camera, so all you do is snap it in place—no thumb screw needed to mount or unmount your camera. The auto-engaging dual latch design locks it securely to your camera, but only needs a pinch to release. And it's built tough, with a metal shell that protects it on the go.

**Feature Bullets**

- Lets you easily and quickly swap HERO13 Black between mounts1 without the need to touch a thumb screw
- Magnetic dual-latch design aligns your camera with the mount and helps lock it in when the camera is pressed into the adapter
- Symmetrical design allows you to attach your camera to the mount facing either direction
- Two-button pinching action immediately releases the camera
- Durable metal construction keeps the adapter rigid and secure
- Compatible with all GoPro mounts[1]

**What's Included**

- Magnetic Latch Mount
- Thumb Screw

**Compatibility**
HERO13 Black Camera

**Footnotes**

1. The Magnetic Latch Mount is perfect for use with handheld and wearable mounts. Use your camera's built-in mounting fingers for high-shock and high-vibration activities, including auto racing, offroading or trophy truck racing.
2. Rinse the Magnetic Latch Mount with fresh water after using in salt water or dusty/dirty environments.
