Colour

PRODUCT DETAILS

The BleeqUp Ranger is a sleek, 49 g pair of AI-powered smart glasses that combines professional-grade sports eyewear with intelligent recording and sharing technology. Ride lighter, freer, and smarter — all while staying protected and connected.

AI-Powered Instant Editing & Sharing

Capture, edit, and share your sports highlights effortlessly. With built-in AI editing, the Ranger automatically compiles your best moments into ready-to-share clips — no need for manual trimming or post-production. Simply tap, ride, and share.

120° Wide-Angle Lens with Image Stabilization

Enjoy immersive first-person footage with a 120° wide-angle lens that captures every detail, from sweeping landscapes to close-up action. Advanced electronic image stabilization keeps your shots smooth and steady, even in motion.

Horizontal & Vertical Shooting Modes

Whether you're recording for widescreen playback or social media stories, Ranger supports both horizontal and vertical shooting for maximum flexibility.

Featherlight & Ergonomic Design (49 g)

Engineered for comfort and performance, the Ranger weighs only 49 grams — making it ideal for cycling, running, skiing, or any outdoor sport. The aerodynamic frame and balanced weight distribution ensure a pressure-free fit, even during long rides.

Professional-Grade Sports Protection

Equipped with durable, impact-resistant lenses and a UV400 protective coating, the Ranger shields your eyes from debris, wind, and sunlight, keeping your vision clear and safe in all environments.

Touch & Communication Control

Operate effortlessly with intuitive touch gestures — start or stop recording, switch modes, or adjust settings with a single tap. Stay connected through the integrated Air-Conduction audio system and intercom function, allowing you to enjoy clear music, calls, and real-time team communication while

remaining fully aware of your surroundings.

Endurance & Connectivity

Designed for long adventures, the Ranger delivers extended battery life — capable of recording continuously for up to 1 hour of video, or providing up to 8 hours of music playback via its bone-conduction speakers. With Bluetooth smartphone integration, you can instantly transfer, preview, and share your footage through the BleeqUp app anytime, anywhere.
