Colour

PRODUCT DETAILS

Take control of your experience with the BleeqUp Bluetooth Controller, designed to seamlessly integrate with your BleeqUp Ranger Glasses. Whether you're recording your adventure, managing calls, or adjusting settings, the Bluetooth Controller puts everything at your fingertips — without the need to interrupt your activity.

Precise Remote Operation

Take full control of your experience with a simple press. Capture photos, start or stop video recording, play or pause music, adjust volume, enable or disable intercom, and toggle mute — all directly from the controller.

Wireless Freedom via Bluetooth

Stay untethered and focused with stable Bluetooth connectivity. The controller lets you operate key features remotely, without reaching for your glasses or interrupting your motion.

Safe, Focused Riding

Keep your eyes on the trail and your hands where they belong. Control your Ranger Glasses safely and conveniently while maintaining full awareness of your surroundings.
