

Wilfa Uniform Evo Coffee Grinder, Black

255721

The Wilfa Uniform Evo coffee grinder is the next generation of our award-winning bestseller—developed in collaboration with baristas who know what it takes to achieve the perfect grind. For consistent results, full aroma, and absolute control - whether for espresso, filter coffee, or pour-over.

PRODUCT DETAILS

UNIFORM EVO – THE EVOLUTION OF WILFA'S AWARD-WINNING COFFEE GRINDER

The Uniform Evo is an advanced version of Wilfa's best-selling and award-winning Uniform coffee grinder. Developed in collaboration with professional baristas, this grinder ensures maximum precision, flavor, and control. Whether you're brewing espresso, filter coffee, or prefer manual methods like pour-over or Aeropress.

ITALIAN FLAT BURRS FOR OPTIMAL GRIND QUALITY

Uniform Evo features 64 mm wide, Italian-made flat burrs in stainless steel. These deliver uniform particle size, crucial for extracting the best flavor from your coffee beans. The grinder operates slowly, minimizing heat build-up and preserving the coffee's natural aromas and oils.

41 GRIND SETTINGS + 10 MICRO-ADJUSTMENTS: ONE GRINDER FOR EVERY BREW METHOD

Uniform Evo offers 41 main grind settings and 10 micro-adjustments for added precision. Gain full control over your grind for: Turkish coffee, Espresso, Aeropress, Pour-over, Filter coffee, French press, and Boiled coffee.

GRIND DIRECTLY INTO THE ESPRESSO PORTAFILTER

The Uniform Evo includes adapters for 51–53 mm and 58 mm portafilters, allowing you to grind directly into the portafilter. This provides a seamless brewing experience and makes it easy to prepare barista-quality espresso at home.

INTEGRATED PRECISION SCALE: PERFECT DOSING EVERY TIME

The lid of the Uniform Evo doubles as a digital precision scale (Uni), with 0.1-gram accuracy and a capacity of up to 2 kg. This lets you weigh your coffee beans directly before grinding, ensuring consistent flavour and the ideal coffee-to-water ratio. Key features of the Uni scale include: Tare function, Timer function, and Rechargeable battery via USB-C (approx. 20 hours of use).

QUIET GRINDING

Uniform Evo is not only powerful and precise, but it is also quiet in operation. Grind your beans without

waking the family in the morning or interrupting a conversation at the kitchen table.

CONNECT TO THE WILFA SVART APP FOR FULL CONTROL

Via Bluetooth, you can connect the scale to the Wilfa Svart app, which guides you to the perfect coffee-to-water brewing ratio. The app gives you control over both time and quantity.

SMART AND USER-FRIENDLY DESIGN

Uniform Evo is designed for an effortless grinding experience, featuring: Auto-stop when the last bean is ground, an Anti-static metal container to reduce coffee dust and mess, and Easy one-button operation. A cleaning brush is also included for simple maintenance.

DURABLE CONSTRUCTION AND 5-YEAR WARRANTY

Built from aluminum and stainless steel, the grinder comes with a 5-year warranty from Wilfa, confirming it's a high-quality product built to last.
