

GoPro HERO

254262

Tiny by design and easy to use, our smallest 4K camera features a rugged super-light design that's smaller than other GoPro cameras, but still waterproof to 5 m. HERO also packs streamlined controls, HyperSmooth video stabilisation with the GoPro Quik app, plus the ability to auto-upload your footage to the cloud where a highlight video is automatically created and sent to your phone.¹

PRODUCT DETAILS

Ultra Compact Design Weighs Only 86 g

With 35% less volume and 44% less mass than HERO12 Black, HERO is small and light enough to follow you on any adventure. Carry it in your pocket, in your pack or capture body- and gear-mounted shots or handheld footage on the go.

Rugged + Waterproof to 5 m

Completely waterproof and built with legendary GoPro durability, HERO is ready to capture the fun whether you're ripping through mud, snow or water (down to 5 m), or just exploring nature or a new city.

Intuitive Touch Screen

HERO's LCD screen lets you frame your shots perfectly while touch controls let you simply swipe to swap capture modes and tap to adjust camera preferences.

Mounting Flexibility

HERO's built-in mounting fingers makes it compatible with a huge variety of GoPro mounts to help you get any shot you can dream up. Record point-of-view footage and relive amazing moments exactly as you saw them or capture them from new angles and see things as you've never seen them before.

Super Simple Controls

HERO makes capturing breath-taking GoPro footage incredibly easy—just frame your shot and hit the Shutter button for amazing results.

Stunning Image Quality

HERO captures the action in ultra HD 4K video while also taking 12-MP photos. You can also grab 8-MP photos of your favourite shots from your videos using the GoPro Quik app.

HyperSmooth Video Stabilisation With the Quik App

The GoPro Quik app uses HyperSmooth video stabilisation to automatically smooth out the bumps in your footage. Whether you're biking, skating, skiing or chasing your kids through the park, even the shakiest footage comes out silky smooth.

2x Slo-Mo

Everything is more amazing in slow motion. HERO lets you record the action in 2x slo-mo to catch details that can't be seen at full speed.

Easy Hands-Free Capture

HERO can be worn comfortably with GoPro body mounts to get incredible footage when your hands are busy with handlebars, ski poles, tow ropes and more. After mounting, use voice commands for the ultimate in hands-free control.

Long-Lasting Battery

Stay out on the trail or water even longer without missing a shot. HERO can record continuously for 60 minutes at its highest video setting on a single charge.³

Highlight Videos Automatically Sent to Your Phone¹

Simply plug in your GoPro when connected to your home Wi-Fi. While it's charging, your footage is automatically uploaded to the cloud and used to make a highlight video complete with beat-synced music and effects. Videos are automatically sent to your phone and ready to share.

Edit Your Shots With the GoPro Quik App

The GoPro Quik app features an array of easy-to-use tools that let you edit your footage like a pro. You can tweak the highlight videos created by the app or make your own videos from scratch. You can also zoom in, crop, add filters and more with your footage.

Easy Transferring + Unlimited Cloud Backup¹

Transferring photos and videos to your phone is a snap. Choose wireless upload via the Quik app. There's also unlimited cloud storage with hassle-free auto-upload.¹ Just plug in your camera when connected to your home Wi-Fi and your GoPro does the rest.

Footnotes

1. Within your home Wi-Fi network. GoPro subscription required. GoPro subscription available in selected territories. Cancel anytime. Visit gopro.com for info and availability.
2. Frame rate is listed in 60 Hz (NTSC) and 50 Hz (PAL) video format, which depends on your region.
