PRODUCT DETAILS

A reborn classic

The PLX-1000 is precision engineered for the booth, drawing on 50 years' experience of making high-end turntables. The result is a familiar layout with some next generation improvements, including a high-torque direct drive system, multi-pitch control, club-grade build and sound quality, and detachable power and audio cables. It's solidly built for excellent vibration damping and ultra-precise, high-grade audio playback.

Simply add your choice of cartridge and stylus to the PLX-1000 (not included) and combine with your mixer for an ideal setup for turntablists. An ideal match for DJs is the handmade PC-X10 (sold separately).

Turn the tables

The high-torque direct drive ensures stable rotation and exceptional control - and it reaches 33 rpm in just 0.3 seconds thanks to a starting torque of 4.5kg/cm (or more).

Excellent sound design

The PLX-1000's heavy-mass, die-cast zinc chassis prevents resonance and vibrations. The lower part of the unit is reinforced with 8mm-thick resin, plus 9mm-thick, vibration-damping material at the base. Plus the rubber-insulated tone arm reduces howling effects, while rubber and springs on the dampening parts of the insulator absorb external vibrations.

Pick up the pace

Multi-tempo control lets you instantly pick up or slow down the track to $\pm 8\%$, $\pm 16\%$ and $\pm 50\%$, while a simple reset button instantly reverts to $\pm 0\%$.

Flexible connectivity

Interchangeable power and audio cables can be easily connected and replaced, and pro-grade gold-plated RCA jacks ensure low impedance and an amazing sound quality.

Specs

Product Attributes

EAN:	4988028245237
Manufacturer number:	PLX-1000
Product weight:	18.39 kilograms
Pieces per master carton:	1 Piece

Turntable Features

Drive method:	Direct-drive
Speed:	33 rpm 45 rpm
Wow & flutter:	0.1% or less WRMS
Built-in preamp:	false
S/N ratio:	70
Cartridge type:	MM
Rec. cartridge weight:	2.5-12
Outputs:	RCA

Dimensions and Weight

Product height:	15.9
Product width:	45.3
Product length:	35.3
Product weight:	14.6
Packsize height:	28
Packsize width:	56.5
Packsize length:	47
