

Silk'n®

Silk'n Infinity Fast

256768

Achieve ultra-fast, long-term hair removal with the Silk'n Infinity Fast. Using patented technology for deeper light penetration, this device delivers a full body session in just 7 minutes. It features 600,000 flashes at a rapid 120 flashes per minute, yielding up to 92% hair reduction in just six dermatologist-recommended sessions.

PRODUCT DETAILS

The Silk'n Infinity Fast redefines at-home IPL treatments, delivering permanent, long-term hair reduction at record-breaking speeds.

Why the Infinity Fast Changes Everything:

- **A Full Body Session in Just 7 Minutes:** Powered by an incredible firing rate of up to 120 flashes per minute, the Infinity Fast glides effortlessly over your skin, cutting down your treatment time without sacrificing results.
- **Patented Technology:** This isn't ordinary IPL. Our patented technology temporarily widens skin pores, allowing the light pulses to penetrate deeper into the hair follicle for maximum efficiency and longer-lasting smoothness.
- **Up to 92% Hair Reduction:** See dramatic results in no time. With just six sessions spaced two weeks apart, you can eliminate up to 92% of unwanted hair growth.
- **Dermatologist Recommended & Built to Last:** Trusted and recommended by leading dermatologists, the device comes packed with 600,000 flashes—more than enough for years of full-body treatments and touch-ups.

Bring the clinical power of the salon into your home, and enjoy ultra-fast, painless, permanent hair reduction on your own schedule.
