

Ooono The MOUNT magnetic holder

256257

Keep your OOONO CO-DRIVER securely in sight. Easy vent installation, magnetic stability, and compatible with all NO1 and NO2 models. Shop the OOONO Mount now.

PRODUCT DETAILS

The OOONO Mount is designed to keep your CO-DRIVER right where it belongs while you're on the road. With a clean, stable design and easy installation, it ensures your CO-DRIVER is securely positioned — giving you a seamless driving experience without distractions.

What is the Mount?

The OOONO Mount of the first generation is a compact accessory that lets you attach your CO-DRIVER — or even Smartphone to your car's air vent. Using a simple vent clip and metal plate, it provides a fixed place for your device without adding visual clutter. The mount fits most standard air vents and is designed to integrate neatly into your car's interior.

It's especially useful if you

- Don't want to use adhesive on your dashboard
- Share the car with others and need flexibility
- Want a clean, consistent place for your device

Compatibility

The OOONO Mount is compatible with both the CO-DRIVER NO1, CO-DRIVER NO2 and CO-DRIVER NO2 PLUS, and can also be used with your smartphone.

How to use the Mount for CO-DRIVER NO1

- Insert the Mount into your car's air vent.
- Stick the CO-DRIVER directly onto the bigger magnetic plate using the adhesive pads.
- That's it! The Mount provides a stable, accessible spot for your CO-DRIVER NO1.

Title text

- 1x OOONO magnetic cell phone holder
- 2x round magnets for attaching to your device/smartphone
