HOVERAir

HOVERAir AQUA Lighthouse

256615

Stay connected and in control with Lighthouse, a wearable controller designed for seamless tracking on the water. Acting like an invisible tether, it keeps your HOVERAir AQUA locked onto you with precision—even when you’re out of sight. With intuitive, hands-free control for takeoff, return, and directional movement, Lighthouse lets you guide your camera naturally, so you can stay fully focused on the moment while it captures every angle.

PRODUCT DETAILS

- Wearable controller for hands-free takeoff, landing, and directional control.
- Enables precise tracking on water, even when you’re temporarily out of view.
- RTK-powered positioning for centimeter-level accuracy and stable tracking.
- “Invisible tether” connection keeps AQUA reliably linked to you at all times.
- Designed for water environments—no remote or phone needed for core control.
