TG Attachment Large Ball

256838

Therabody Theragun Large Ball Attachment: greater surface area and a low impact level for treating large muscle groups like glutes, hamstrings and quads, easing tension and improving circulation.

Colour

PRODUCT DETAILS

Large Ball Attachment
The Large Ball Attachment is specifically designed with greater surface area and the low impact level needed for treatment of large muscle groups like the glutes, hamstrings and quads.

Comfortably relieve tension in larger muscles
The smooth, round shape helps cover more surface area, providing a relaxing yet effective way to reduce muscle tension and improve circulation pre and post-workout.

Product Specifications
