PRODUCT DETAILS

Outstanding sound

With a new 40-mm driver, hear your tracks loud and clear. The 4-core twisted-structure cable gives superior left and right channel separation and the magnetic circuit is optimised so, thanks to fine noise suppression and elaborate tuning, you can enjoy distortion-free sound.

Rigorously tested

Take the HDJ-X headphones on the road and feel confident they'll handle severe conditions and heavy use. All the HDJ models have cleared the US Military Standard Shock test as well as our own stringent stress testing.

Comfortable fit

These headphones are comfortable to use no matter how you wear them. The housing design reduces pressure on your head, while its outside texture enhances grip. To help you find the perfect fit, they also feature a flexible, durable headband and a flexible swivel.

Solid, refined design

All the HDJ-X headphones feature a refined look and durable construction. Choose from black or silver versions to complete your desired look.

Excellent portability

A compact carry pouch fits snugly around your folded headphones to save space in your luggage and reduce the risk of damage on the road.

Replacement parts available

Easily renew the detachable cables and ear pads with replacement parts (sold separately).
