PRODUCT DETAILS

Uncompromising security
Powered by the Secure Element Chip and Ledger's proprietary OS, the keys to your assets are kept offline, far from hackers' reach.

Made for clarity and comfort
You can confidently review and clear sign transactions on the first secure E Ink® touchscreen display.

Customizable
Customize the lock screen with your favorite NFT or picture, even when it's off thanks to E Ink® technology.

All your digital assets all in one place
You can manage and control thousands of cryptocurrencies, including Bitcoin, Ethereum, Solana, Cardano and many more... and your favorite NFTs based on Ethereum and Polygon blockchains. All in one place.

Ledger Live™, the crypto companion app for your hardware wallet
The Ledger Live™ app is a one-stop shop allowing you to manage your crypto with our third-party service providers. You can track your assets across multiple platforms, monitor price changes, expand and diversify, and stay up to date on the value of your portfolio. You can also access various Web3 dApps, products and services, and level up your crypto knowledge.

The Ledger Live™ app

- The secure crypto app to manage your digital assets and more wherever you are.
- Validate transactions securely and seamlessly with your Ledger wallet.
- Buy, swap, sell, stake and manage your crypto on-the-go through trusted third-party service providers.
