Momcozy Baby Sound White Noise Machine with App Remote Control

254233

The Momcozy Baby Sound White Noise Machine with App Control is a smart, app-connected sound machine designed to bring comfort and convenience to parents and their little ones. With easy Bluetooth connectivity, you can control the device remotely, adjusting white noise levels or choosing a lullaby from your smartphone for a seamless bedtime routine.

PRODUCT DETAILS

Diverse Soundscape for Sweet Dreams

Discover 34 high-quality sounds, including 11 gentle white sounds, 3 soothing fan sounds, 8 adorable lullabies, and 12 natural sounds. With a volume of 40 to 110 dB, you will find the ideal sound to minimize distractions and create a peaceful sleeping environment for your baby or child.

Soft night light for sweet dreams

The soft LED lighting provides just the right amount of light intensity for nighttime needs without dazzling. With 7 calming color options, it is the perfect night light for the children's room, creating a relaxing atmosphere and making it easier to fall asleep.

Easy control for parents

Control the smart light conveniently at the touch of a finger or use the free app on your smartphone. This allows you to easily adjust your child's sleeping environment without having to enter the room.

Improved sleep quality for your child

The soothing sounds and soft lights help your baby relax and fall asleep more easily. Promote a healthy sleep routine so that your child falls asleep faster and gets a restful night's sleep.

Individual settings for maximum customization

Adjust the color, brightness, sound and volume according to your child's preferences, and program automatic power on and off to perfectly match your family's sleep patterns.
