

BlendJet 2 Portable Blender - XL Jar

251809

Say hello to our not so little friend. This 95 cl jar transforms your BlendJet 2 from a personal blender into the life of the party. And because BlendJet 2 is portable, you can take the party wherever you go! Upgrade your tailgating with frozen margaritas for the whole squad. Chillax poolside with a round of piña coladas. Or blend up a delicious smoothie for the whole fam. Whoever said size doesn't matter hasn't tried this bad boy.

PRODUCT DETAILS

LARGE AND IN CHARGE

Say hello to our not so little friend. This 95 cl jar transforms your BlendJet 2 from a personal blender into the life of the party. And because BlendJet 2 is portable, you can take the party wherever you go! Chillax poolside with a round of piña coladas, spice up the beach party with frozen margaritas or blend up a delicious smoothie for the whole squad. Whoever said size doesn't matter hasn't tried this bad boy.

IT'S KIND OF A BIG DEAL

Double the size, double the fun! This 95 cl jar is twice as big as our standard BlendJet 2 jar, which means you'll have plenty of blended goodness to go around. It's large enough to blend up smoothies at home for the fam, but compact enough to bring to parties, a picnic, the beach, or anywhere else you like to hang.

A LOT TO HANDLE

A strap isn't going to cut it if you're carrying around 95 cl of blended goodness. That's why we gave this jar a soft-touch handle that makes it easy to carry on-the-go. When people see you toting this supersized stunner, they'll know you mean business.

DITCH THE MEASURING CUP

Leave those measuring cups in the kitchen drawer. We put measurement markings right on the jar to take the guesswork out of recipes. Let's be honest though, you're just going to ignore them and eyeball it as usual, aren't you?

SO FRESH AND SO CLEAN

If you're like us, you're not a huge fan of cleaning. That's why we designed the BlendJet 2 to clean itself, even with this roomy 95 cl jar attached. Just add water, a drop of soap, and blend. Then watch as your BlendJet magically cleans itself. Remember to tell your BlendJet "thank you" for being such a good little helper.

INSTALLATION IS A CINCH

No screwdriver required. All you have to do is unscrew the standard jar from the base of your BlendJet 2 and screw on the 95 cl jar. If you manage to screw that up you most likely have a screw loose.

FEATURES

- INCREASED CAPACITY - Blend up 95 cl of whatever it is you and your crew are craving.
- MEASUREMENT MARKINGS - We put measurements on the jar so you won't have to dirty and clean your measuring cups. You're welcome!
- EASY TO CLEAN - Nobody likes cleaning, so we made it super easy. Just add water, a drop of soap, and blend.
- EASY TO INSTALL - Just screw the jar onto the base of your BlendJet 2 and you're good to go!
