

Wilfa Svart Format electric kettle, Black

251932

SVART Format is a kettle that gives you full control with adjustable temperature, choose between 40, 70, 80, 90 and 100 degrees. Stylish and aesthetic design in steel, alternatively in a trendy matte black colour.

Colour

PRODUCT DETAILS

The SVART Format is a steel kettle with straight lines in a Scandinavian aesthetically pleasing design. A high-powered kettle that gives you full control over the temperature you want your water to be.

Double insulated walls

With double insulating walls, the kettle gets less hot on the outside, which means it retains heat longer and also acts as a user shield on the outside.

Capacity

The SVART Format holds a full 1.25 litres.

Robust steel and BPA-free

The kettle is made of sturdy steel and also BPA-free

Swivelling bottom plate 360°

With a 360° swivel base, you can easily set the jug down.

Keep-warm function

It has a 25-minute keep-warm function that you can set yourself on the panel.

Adjustable temperature

Different types of tea require different temperatures of water to be perfect and with SVART Format you can choose from 40°C, 70°C, 80°C, 90°C or 100°C.
