## Anova Vacuum Sealer Bio Bags, Pre-cut

251763

Our new and improved Anova Precision™ Vacuum Sealer Bags and Rolls are 100% plastic neutral. Every time you purchase a box of Anova Precision™ Vacuum Sealer Bags and Rolls, the equivalent plastic of 32 plastic bottles will be prevented from entering the ocean through our partnership with Plastic Bank®. The bags and rolls produce the same durable plastic, reliable vacuum seal you're used to, but without increasing the proliferation of plastic waste.

Style

ROLLS, **PRE-CUT**

### PRODUCT DETAILS

FDA Approved, BPA free  
No nasty stuff.

We've ensured that all Anova Precision™ Vacuum Sealer Bags are 100% food-safe, free from harmful BPA plastics, can safely withstand multi-day cooks and boiling temperatures up to 4 hours. The only thing leaving this bag is whatever you (the culinary artist) put in.

#### Freezer safe

These bags are freezer safe up to 3 months. Vacuum sealing deprives your food of oxygen, which prevents harmful mold and bacteria from growing, which is important for long-term food storage. Which means less food waste and more dollars saved.

It's also great for meal prep. If not cooking immediately, pre-seal your food and safely store it for later use in the fridge or freezer. Then, whenever you're ready, transfer straight to your sous vide pot or the Anova Precision Oven and voila – a pro-level meal at your fingertips.

### Specifications

- **Product Dimensions:** 22 cm x 30 cm (8.6 x 11.8)
- **Materials:** 2 layers LDPE plastics with 1% prodegradant additive & 1 layer PA/Nylon BPA free.
